Eco-Tech SUMMER CAMP 2024

Eco-Tech Summer Camp 2024, where adventure and learning about sustainability come together! Our five-week (25-day) program is specially designed for young explorers eager to make a difference in the world. Each week, campers will dive into exciting and important environmental topics: the importance of water, the magic of solar energy, the innovation behind electric vehicles, the creativity in recycling, and the practice of eco-friendly living.

In addition to these engaging weekly projects and activities, our daily Social Emotional Learning sessions are a cornerstone of the camp, helping children develop vital life skills. These sessions are dedicated to building self-awareness, enhancing social skills, and teaching responsible decision-making – essential tools for their future. As it is the children's summer holiday time, the camp also features a variety of activities like cooking, arts & crafts, sports, and team-building games, ensuring a well-rounded and enriching experience.

Eco Tech Summer Camp 2024 offers an unparalleled experience where children gain valuable skills, environmental awareness, and personal growth, making it an ideal choice for parents seeking a holistic development opportunity for their children.

Week 1

(24 - 28 June)

H2O - We Are Water

Water is Life! Campers explore the crucial role of water in sustaining life and the impact of human activities on water sources. They engage in inquiry and discussions about water pollution, its ecosystem effects, and solutions for improving water quality. Activities include designing water cycle posters and building DIY water filters, enhancing understanding of water conservation.

Week 2

(01 - 05 July)

WASTE - Recycling Innovation

Shaping a Sustainable World with investigation into recycling and waste management. Campers learn about innovative recycling methods and the importance of waste reduction. They engage in upcycling projects and explore new recycling technologies. Activities include creating collages from recycled materials and making planters from plastic bottles.

Week 3

(08 - 12 July)

EVs - The Electric Revolution

Pioneering Sustainable Transportation with a focus on electric vehicles (EVs) and their sustainable role. Campers delve into EV technology, environmental benefits, and their emissions impact. They create wind-powered cars and design posters advocating eco-friendly transportation, highlighting the shift towards a greener transport future.

Week 4

(15 - 19 July)

SOLAR - The Power of the Sun

Harnessing Renewable Energy with a focus on solar power. Campers learn how solar energy can power our world and its role in combatting climate change. They build solar-powered models and participate in workshops on renewable energy science. Activities involve constructing solar water heaters and creating sundials, teaching about solar energy and timekeeping.

Week 5

(22 - 26 July)

LIFE - Eco-friendly Living

Building a Greener Tomorrow! Campers embrace eco-friendly living practices like recycling and composting. They learn practical ways to reduce their carbon footprint through sustainable projects. Activities include decorating reusable shopping bags and creating posters with energy-saving tips, emphasizing individual contributions to environmental conservation.

Exhibition - Creating a Better Future

Invitation to: All families
Date: Friday 26th July
Time: 2pm
Location: CISS Campus

On the final day of summer camp, students will be hosting an exhibition to showcase their creativity and achievements based on their Eco-Tech journey throughout the summer!

Inspire Educamps' SEL Programme promotes children's holistic growth, targeting five key areas across five weeks. This curriculum aims for thorough SEL skill enhancement, enriching children's educational journey.

Week 1: **Self-Awareness** explores emotions, strengths, confidence, values, and mindfulness.

Week 2: **Self-Management** covers impulse control, stress handling, organization, goal-setting, and resilience.

Week 3: **Social Awareness** teaches empathy, diversity, community involvement, social cues, and global consciousness.

Week 4: **Relationship Skills** highlights communication, teamwork, conflict resolution, and empathy in relationships.

Week 5: **Responsible Decision-Making** deals with situational analysis, ethical considerations, problem-solving, and decision reflection.

S

Power down the phone, put away the iPad and switch off the TV! Kids will get active in daily sports and teamwork games! These activities nurture kids' motor skills, confidence, and enthusiasm for active, collaborative play.

A

Activity sessions are art & craft-based activities that link closely to each weekly theme. Using age-appropriate techniques and materials, children will engage in activities designed to challenge their creative thinking skills.

TB

Teambuilding focuses on boosting confidence and promoting self-esteem. Children are encouraged to learn the true value of collaboration in activities to achieve collective goals through synergy.

LS

This summer, our Life Skills sessions focus on Core Values. We aim to instill key principles such as empathy, respect, responsibility, integrity, and perseverance. Engaging workshops nurture these virtues, aiding children in integrating these values into daily life for meaningful growth.

C

This year's cooking will mix sweet and savory tastes. Kids will learn about different baking styles and use a variety of ingredients to make tasty cakes and biscuits. It's a fun and valuable life skill, and fun too!
